

LEARNTEC 2024: Help shape digital education!

Call for papers opened / Digital education topics from work, higher education and school can be submitted until 8 October 2023

Karlsruhe, 11.09.2023. The call for papers for LEARNTEC - Europe's most important trade fair and convention for digital education in schools, universities and the workplace - has started. From 4 to 6 June 2024, the convention will be dedicated to the trends and topics of digital education in practice-oriented lectures, workshops and discussion rounds. It enables participants to experience the concentrated spectrum of digital education as part of the community and to exchange ideas with top-class experts from business and science. Interested parties have until 8 October to submit topics [online](#) in German or English or to suggest speakers and thus actively participate in the congress.

"The LEARNTEC Convention is an important platform for innovations in the education sector and, with its latest topics, is always a step ahead of the trends. It shows where visions become reality. We invite you to use this unique platform to share expert knowledge, network and actively shape the future of education," say Sünne Eichler, Prof. Dr. Peter A. Henning and Micha Pallesche from the LEARNTEC Convention Committee.

The Call for Papers for the LEARNTEC Convention focuses on the topics of digital learning in the professional environment. Submissions are welcome, for example, on learning content and its production, hardware and equipment, learning software and intelligent learning systems. However, education management and education culture as well as topics from personnel and coaching such as New Work and Modern Workplace Learning are also in demand. The LEARNTEC Convention Committee compiles essential parts of the congress programme from all submissions according to strict criteria.

In addition, topics on digital education in schools and universities as well as on augmented and virtual reality can be submitted, which will be integrated into the trade fair's specialist forums, for example the AR/VR Area, the specialist programme university@LEARNTEC or the forum school@LEARNTEC. The search is on, for example, for best-practice examples from digital teaching in

About LEARNTEC

LEARNTEC is Europe's largest event for digital education. Decision-makers from industry, the consulting sector, trade and sales, as well as from schools and universities come to Karlsruhe every year to find out about and exchange ideas on the possibilities of digital learning. The LEARNTEC congress imparts practical knowledge over three days. Open space sessions and open discussion rounds promote the exchange between speakers and participants.
